

CANADIAN LIVER FOUNDATION presents

Howard Dill

Memorial Walk for Liver Health

Howard Dill was born on July 22, 1934 and passed away on May 20, 2008 due to liver cancer. Known around the globe, Nova Scotia farmer Howard Dill was a 4-time world champion grower and creator of the famous "Dill's Atlantic Giant" seeds which have produced world-record pumpkins weighing more than 1,000 lbs.

In memory of Howard, we invite you to join us on October 10th to help increase awareness of liver disease and to raise funds for liver research and education. Together we can make a difference for the 1 in 10 Canadians of all ages living with liver disease.

Saturday, October 10, 2015

Pledge online: www.atlanticwalks4liver.ca

The Dill Farm

400 College Road, Windsor

Walk starts at 1:00 PM

Rain or shine
